Smart & Smooth

Experience a seamless ride with the AIMA Spark's intelligent cruise control system, ensuring a smooth journey every time.

Enhanced Safety

Equipped with front and rear shock absorption and a reliable braking system featuring front disc and rear drum brakes, prioritize safety without compromising on thrill.

Advanced Control

Stay informed with the LED display, providing real-time updates on speed, battery life, and more for a fully immersive riding experience.

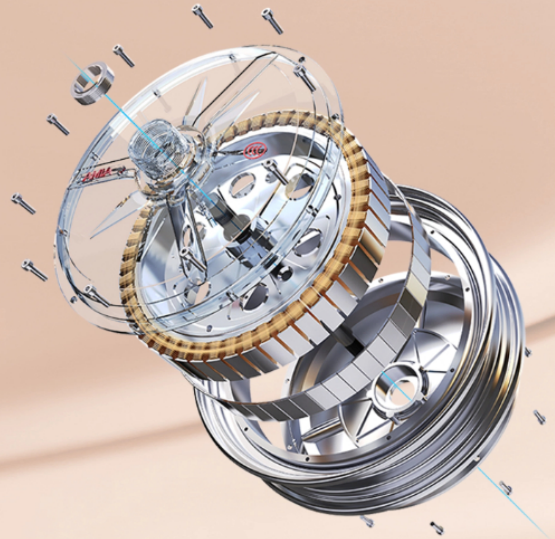

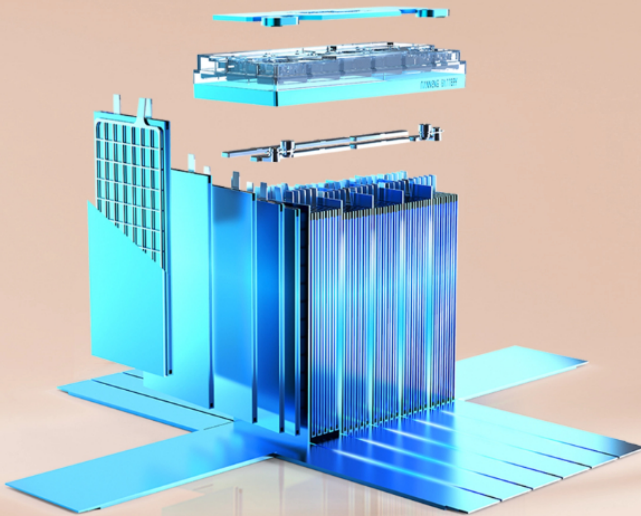

Sleek Design

Featuring a modern design and sturdy construction, the AIMA Spark combines style with functionality, making it the perfect choice for urban commuters and adventure seekers alike.

Long-lasting Performance

With a powerful 60V500W motor and a high-capacity 60V25Ah GLA battery, enjoy extended rides with a maximum reach of up to 80km.
