

PRIUS

PRIJS

	SHARP & CONFIDENT DESIGN	
		 Eye-catching white LED clearance lamps LED headlights Trapezoidal-shaped red LED rear combination lamps Coupe-like roof line & distinctive side creases Low centre of gravity
	ERGONOMIC & SPACIOUS INTERIOR	
A modern-day icon. Efficiency that remains unrivalled.		 4.2" full colour twin meter displays Multi-functional steering wheel switches Smart air conditioning system Driver seat lumbar support Lightweight and comfortable seat frames 60:40 folding rear seats with easy-to-use seatback lever
The Prius.	PROVEN PERFORMANCE	
The world's first mass-produced hybrid car delivering innovations that make a difference.		 Exceptional aerodynamics with low coefficient drag Excellent driving dynamics with double wishbone rear suspension World-class fuel efficiency Low CO₂ emission Seamless acceleration with CVT Exceptional cabin quietness
	ADVANCED SAFETY FEATURES	
		 Anti-lock Braking System (ABS) Vehicle Stability Control (VSC) Traction Control (TRC) Emergency Brake Signal SRS Airbags Impact absorbing bood

Impact absorbing hood

Bold Exterior

Sharp and confident design that turns heads

LED HEADLIGHTS

ENHANCED NIGHT VISIBILITY

The stylish LED headlights enhance night visibility and give the Prius a prestigious feel.

FRONT FOG LAMPS AND DAYTIME RUNNING LIGHTS

STRIKING SPORTY LOOK

These are cleverly integrated into the lower grille for an unmistakable sporty look.

TRAPEZOIDAL LED REAR COMBINATION LAMPS

EYE-CATCHING DESIGN

The striking LED lamps not only provide excellent visibility in low light conditions, they also consume less power.

COUPE-LIKE ROOF LINE & SIDE CREASES

DISTINCTIVE SILHOUETTE

Fusing energetic styling with superb aerodynamic performance, the low-slung platform creates a spacious cabin with generous headroom and ample luggage space.

15" LIGHTWEIGHT ALUMINIUM WHEELS

AESTHETICALLY ASTOUNDING

The wedge-shaped design of the super lightweight aluminium wheels delivers superb aerodynamic performance.

LED REAR FOG LAMPS

SLEEK DESIGN

Distinctly positioned for added visibility and unsurpassed safety.

Det

Spacious Interior

Ergonomically designed for comfortable driving

KEYLESS ENTRY & START

HASSLE-FREE EXPERIENCE

The electronic key lets you lock and unlock any door by simply gripping the door handle. To start the engine, simply push down on the brake pedal and activate the start button.

STEERING WHEEL SWITCHES

Multi-functional switches at the steering wheel mean you never have to take your hands off the steering wheel.

USB/MINI-JACK & POWER OUTLET

Connect a portable music device and enjoy your favourite music over the Prius' speakers. Plus, a power outlet lets you charge your electronic devices.

DRIVE MODE SWITCH ADVANCED DESIGN

Switch between Normal, Eco, Power and EV modes to suit your driving style. In power mode, an adaptive system gives you a sporty acceleration/deceleration feel.

SMART AIRCON

CLIMATE CONTROL

The Smart Aircon system is an intelligent climate control system which regulates the temperature to provide optimum comfort to passengers while driving.

TOYOTA TOUCH

ULTRA RESPONSIVE

Toyota Touch is a sleek tablet-style 7" touch screen with drag & flick controls that houses an advanced audio system compatible with smartphones.

Deti

Hybrid Synergy Drive

A first that continues to change the way we drive

Revolutionary Hybrid Synergy Drive (HSD)

Combining a highly-efficient gasoline engine and powerful electric motor, the Hybrid Synergy Drive delivers feel-good seamless acceleration, together with exceptional fuel efficiency and low emissions.

1.8-LITRE GASOLINE ENGINE

MOTOR/GENERATOR

A range of advanced technologies including the Atkinson-cycle, a cooled EGR (Exhaust Gas Recirculation) system and a WT-i enhances fuel efficiency while complying with strict performance. emissions regulations.

Its highest speed range enables reduced size and weight, and increased output density, contributing to a more dynamic

Integrated with the engine, motor and generator, this functions as an Electrically Controlled Continuously Variable Transmission.

POWER SPLIT DEVICE

in low- and mid-speed ranges

Hard acceleration

Stopped

Power-Packed Performance

Class-leading efficiency without sacrificing power

power.

The motor is activated as a generator to convert the moving vehicle's kinetic energy into electricity and charge the battery

Decelerating and braking

The engine automatically cuts out, helping to reduce unnecessary

Monitors driving conditions and intelligently controls the engine and motor output for optimum fuel efficiency.

In addition to normal driving, the battery supplies electricity to drive the motor. enhancing driving

SMOOTH UNDERFLOOR

EXCEPTIONAL AERODYNAMICS

The shaping of the upper body, a smooth underfloor and the integration of spats at the front tires contribute to reduced air resistance and exceptional aerodynamics.

POWER CONTROL UNIT

This compact lightweight unit optimises control of DC electricity from the battery, and AC electricity from driving the motor and generator, and boosts battery voltage up to a maximum of 600V.

NI-MH (NICKEL-METAL HYDRIDE) BATTERY

Installed under the rear seats, this small high-efficiency battery supplies optimum electricity to the motor.

AERO-STABILISING FINS

REDUCED AIR RESISTANCE

Situated on the wing mirrors and rear combination lamps, the fins have been strategically designed to reduce air resistance, thus improving aerodynamic performance.

DOUBLE WISHBONE REAR SUSPENSION

TOTAL CONTROL

Lightweight double wishbone suspension on the rear contributes to impressive handling, stability and ride comfort.

motor. Electricity from

the battery drives the

motor instantly.

SMART ENGINE STOP

The engine automatically cuts out when the Prius is stopped in traffic.

Even while driving, the engine will cut out in response to driving

This state-of-the-art system coordinates control with the lightweight ECB (Electrically Controlled Brake System) to harness the kinetic energy generated by braking to charge the nickel-metal hydride battery.

conditions. At start-up, the Prius drives only with the motor.

REGENERATIVE BRAKE SYSTEM

EFFICIENT ENGINE AND MOTOR CONTROL

The Prius precisely integrates and controls engine and motor

operation to realise optimum fuel efficiency and low emissions.

Advanced Safety Features

Engineered for safety and absolute peace of mind

SRS AIRBAGS

ALL-ROUND PROTECTION

Upon collision, the SRS airbags deploy in milliseconds to minimise impact.

ANTI-LOCK BRAKING SYSTEM (ABS)

STAY IN CONTROL

ABS helps to prevent the wheels from locking up when braking on slippery roads, or during sudden braking, while the EBD optimises the distribution of braking force in various driving conditions.

ABS) VEHICLE STABILITY CONTROL (VSC)

KEEP ON TRACK

The system integrates Electric Power Steering (EPS) with the braking and driving force controls of VSC, ABS and TRC (Traction Control), for excellent control and driving stability.

REVERSE CAMERA

HEIGHTEN AWARENESS

A moving grid-line camera integrated into the rear of the vehicle helps ensure smooth reversing when parking at a 90-degree angle or when parallel parking.

CRASH SAFETY BODY

UNRIVALLED PROTECTION

The high integrity cabin with front and rear crumple zones help absorb impact in the event of a collision. The safety body structure also helps reduce injury to pedestrians.

FRONT & REAR DISC BRAKES

RELIABLE STOPPING POWER

Front and rear disc brakes provide reliable stopping power.
