

Exhilaration by Design.

The All New, All Electric Omoda E5.

#DRIVEeFUTURE | #EfutureRanger

The shape of things to come.

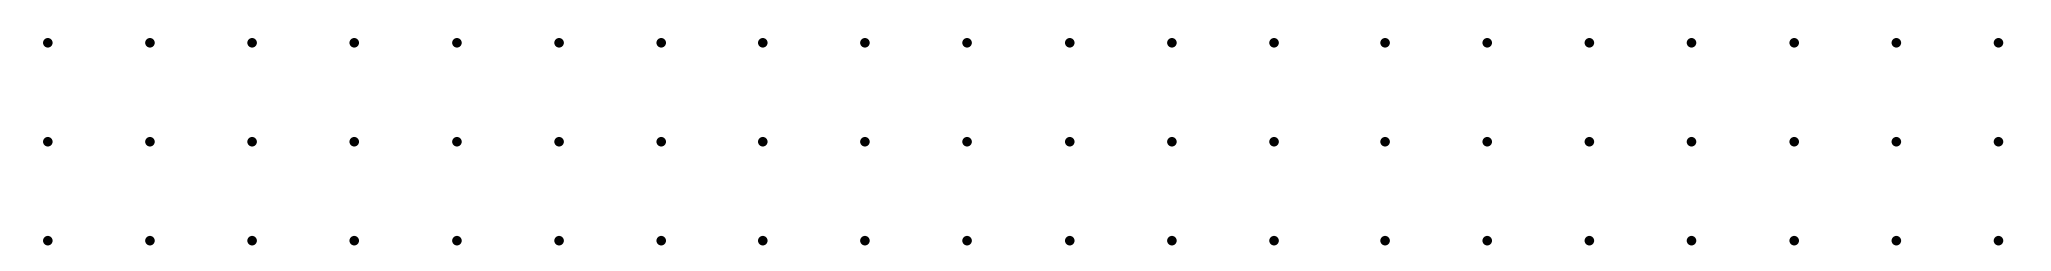

SCULPTED BY THE FORCES OF NATURE.

Born out of light, the Omoda E5 is inspired by the interaction between light and form, the balance between highlights and shadows. Meticulously refined by the artists' eye, acute digital modelling, analysis, simulations and testing.

The result is a high-performing profile with a superior aerodynamic efficiency at 0.281, and an elegantly sculpted poise embellished by avant-garde styling and detailing.

WHAT MOVES YOU.

Utilising the advanced Flat-Wire Winding Technology, the electric motor of the E5 enjoys a more powerful, stable and linear output at an impressive efficiency of 96%.

With Intelligent Power-Control and Distribution and Smart Thermal Management, the E5's Oil-Cooled Motor ensures reliability to the Drive System, resulting in a smoother, highly-responsive power at your command.
